Cedar Falls, Iowa, as Second Class Matter.

Iowa State Teachers College

Was founded in 1876 as a school for the training of teachers for the common schools. It is under the control of the State Board of Education, a body of nine members appointed by the Governor and approved by the General Assembly. This institution offers Courses of Study of all varieties that are essential to the preparation of special teachers for the public schools of all grades. It is fully equipt to do this kind of work in a superior manner so that it is not necessary for Iowa people to send their children away from the state to get the best that is now offerd by modern systems of training teachers. Catalog and Circular mailed on application to the President State Teachers College, Cedar Falls, Iowa.

"Let every earnest youth strive for that sort of intellectual power, which, while it prepares him for the duties of the citizen, will enable him to do thoroly and well his special work in the world."

Adonijah S. Welch, first President, Iowa State College.

IOWA STATE COLLEGE was founded and dedicated to be *"the People's College."* The founders said tuition should be "forever free" to residents of Iowa and they planned for education that would relate closely to the life, work and homes of the people. More than 80 per cent of the state is in one way or another at work in the industries; practically the whole of wealth production comes from the industries; home interests are universal. Therefore the founders provided that research and education at Ames should investigate and teach the sciences and other subjects related to these great fields, but at the same time not neglecting essential cultural values.

"Science with Practice" is the College motto; its education combines "faith, open-mindedness and work"; its essential spirit is the spirit of democracy and intelligent service. Its graduates quickly secure positions that bring satisfaction and profit because they link up so closely with the great constructive work of the world.

A beautiful 120 acre campus has been developed at Iowa State College, with some seventy buildings. Near it are college farms and experimental lands amounting to 1,600 acres more. All this has been so wonderfully developed that the campus is widely known for its beauty. Recently one of the country's greatest landscape architects, at the end of a day's visit to the campus, pronounced it to be one of the most beautiful in the country.

This booklet of views gives merely a glimpse of the attractive spots of the campus and shows a few of its larger buildings. To those who desire further information, other booklets will be sent on application to the Registrar.

THE CAMPUS OF IOWA STATE COLLEGE

"When we build, let us think that we build forever. Let it be such work as our descendants will thank us for."—Ruskin.

Large stone buildings face the middle plaza. "Central," used for administrative offices and class rooms, is the largest of the group. At the right are Agricultural Hall and related buildings; at the left Engineering Hall with its shops. First along the upper side of the plaza are the Home Economics buildings and beyond them a long street of Science buildings and the Veterinary Quadrangle. A new stone Library Building is under erection and a stone Home Economics building and a million dollar Memorial Union building are now planned. Dormitories for women are at the extreme right and State Field and the Men's Gymnasium at the extreme left. In the upper left corner is the Armory.

THE STUDENT BODY AT IOWA STATE COLLEGE

In the background are Central and Engineering Halls. For the year 1923-1924 the enrollment reached the 5,000 mark in the winter quarter.

CAMPUS WALKS THAT INVITE TO PLEASANT STROLLS

"These shades are still the abodes of gladness; the thick roof of green and stirring branches is alive and musical with birds."
—Bryant.

OLD AGRICULTURAL HALL, WITH GREENHOUSE, AND AT THE RIGHT A UNIT OF PLANT INDUSTRY BUILDING

"The great men among the ancients understood how to reconcile manual labor with affairs of state."

THE DAIRY BUILDING AND MORRILL HALL

"One of the wisest things this government ever did was to make ample provision for the great agricultural institutions of this land."—Wm. McKinley.

THE AGRONOMY EXPERIMENT FARM (above) AND DAIRY FARM (below)

"I am for the man with his coat off, with his head and hand skilled for some useful labor, and anywhere the peer of the man trained in the professions."—Beardshear.

A BIT OF WATER TO ENHANCE THE CAMPUS CHARMS

Lake Laverne, developed thru the gift of an alumnus, adds variety to the view and in winter furnishes sport for the student body.

ENGINEERING HALL

"The engineer of the new epoch, the epoch which he is bringing into existence thru the manufacture of power, must be an educated man."—Morison.

A GROUP OF ENGINEERING SHOPS AND LABORATORIES

"One of the indispensable means of increasing the efficiency of schools of technology is to provide well equipped laboratories of all kinds."

THE NEW PHYSICS BUILDING

"The prizes of industrial and commercial leadership will fall to the nation which organizes its scientific forces most effectively."
—Elihu Root.

WONDERFUL TREES (109 kinds) CONSTITUTE THE GREAT GLORY OF THE CAMPUS

"He that planteth a tree is the servant of God; he provideth a kindness for many generations, and faces that he hath not seen shall bless him."—Van Dyke.

HOME ECONOMICS HALL. WORK WILL BEGIN SOON ON A MUCH LARGER STONE BUILDING FOR WOMEN

"A woman's education will be worth while only as it deals with realities. The day of educating girls in accomplishments is past."—L. H. Bailey.

THE HALLS—WOMEN'S DORMITORIES. AN AMPLE RECREATION FIELD LIES BEYOND

"We still have slept together, rose at an instant, learn'd, play'd, eat together."—Shakespeare.

MARGARET HALL—THE FIRST OF THE HALLS FOR WOMEN

"I love it for what it makes me forget and for what it makes me remember."

THE NORTH WOODS IN SPRINGTIME

"Tongues in trees, books in the running brooks, and good in everything."—Shakespeare.

WHEN WINTER COMES

"What miracle of weird transforming is the wild work of frost and light—this glimpse of glory infinite."—Whittier.

THE CAMPUS ON A SUMMER DAY

With the development of summer sessions, the great equipment of the College is used efficiently thruout the calendar year.

THE VETERINARY QUADRANGLE

"To lessen suffering in dumb creatures, to prevent diseases of animals communicable to man, and save millions of live-stock from diseases are tasks of sufficient importance to attract those who wish to render a valuable service to humanity."

ALUMNI HALL—STUDENT CENTER AND HOME OF THE CHRISTIAN ASSOCIATIONS

"The engineer, the agriculturist or the tradesman can be an embodiment of sweetness and light, and this is the ultimate goal of the widest education of the masses."—Beardshear.

CHEMISTRY HALL

"What cannot art and industry perform, when science plans the progress of their toil."—Beattie.

THE COLLEGE ARMORY

Erected primarily for military training, this great floor space also serves the college and the state in many other ways for spectacles and exhibits.

THE MEN'S GYMNASIUM. STATE FIELD LIES JUST BEYOND

"For college honor strive our athletes there, and by that spirit urged, care not for blows."—Macurda.

THE PORTICO OF CENTRAL

CAMPANILE AND AGRICULTURAL HALL

"What comfort, what strength, what economy there is in order—material order, intellectual order, moral order."

WHEN THE AUTUMN LEAVES ARE FALLING

"Ever charming, ever new, when will the landscape tire the view?"

UNIVERSITY OF ILLINOIS

THE COLLEGE

THE IOWA STATE COLLEGE OF AGRICULTURE AND MECHANIC ARTS conducts work along five major lines:

AGRICULTURE — INDUSTRIAL SCIENCE
HOME ECONOMICS — ENGINEERING
VETERINARY MEDICINE

The Graduate College conducts advanced research and instruction in all of these five lines.

Four, five, and six year collegiate courses are offered in different divisions of the College. Non-collegiate courses are offered in Agriculture, Home Economics and Trades and Industries. Summer sessions include graduate, collegiate and non-collegiate work. Short courses are offered in the winter.

Extension courses are conducted at various points throughout the state.

Research work is conducted in the Agricultural and Engineering Experiment Stations, and in the Veterinary Research Laboratory.

Special announcements of the different branches of the work are supplied free of charge on application. Address The Registrar, Iowa State College, Ames, Iowa.
